Women Painters West

Los Angeles Art Association

Experience & Exhibitions

**Numerous Juried Shows in Israel and Los Angeles, including Palos Verdes, CA,
Westwood, CA, Hawaii, Haifa, Israel & Belfast, Ireland**

Open School at Haifa University-Art Teacher

I majored in all aspects of Fine Art Printmaking, Photography, Art History and Art Education. My main emphasis was in Etching, Lithography and Silk Screen. In recent years I developed a great interest in working in the Monotype and Monoprint media. This allows me the possibility of combining all of my Printmaking and Photography experiences into a new and expressive form of art making that is quite satisfying and exciting.

With the advent of Digital Photography I have been able to incorporate my visual ideas into my artwork. I am very influenced by the forms, shapes and colors in nature, and bring these elements into my work. City structures, and in particular the older and more ancient formations will almost always find their way into my images. Sometimes one has to look hard to find them, but their influence is surely there.

I am forever challenging myself with new ideas and images which I find all around me.
